

More than just a skin cancer clinic

Just mentioning a trip to the doctors can send even the bravest of people running. But after you enter the Feel Good, Look Younger – Skin Body and Soul Clinic and meet the fun-loving Dr Mihaela Gugula you will be eager to return.

Located in Horsham's Droylsden building on Baillie Street, Dr Gugula's medical, surgical and aesthetic clinic provides Wimmera-Mallee residents with many services. These range from non-invasive aesthetic procedures to the prevention and treatments of skin cancers.

With post-graduate qualifications in skin cancer medicine and surgery, dermoscopy and advanced surgical training, Dr Gugula is an expert in her field.

Her meticulous and thorough full-body skin checks have prevented, detected and treated skin cancers in hundreds of her thankful pa-

tients.

"I believe that thoroughness is the key to detecting skin cancers. If you restrict your checks to just areas of concern there is more chance something can be missed," she said.

Dr Gugula feels a responsibility to educate the Wimmera about skin cancer prevention and sun safety, opening her services to regional sporting clubs, providing bulk checks for members and players.

"I want to provide services to sporting clubs, people who are primarily outdoors, so they receive group discounts if the whole team gets checked."

The multi-skilled surgeon and physician also offers a wide range on non-invasive aesthetic procedures, using state-of-the-art technology approved by Therapeutic Goods Administration.

Aesthetic procedures including acne treatment, anti-aging treatment, radio-

frequency and photodynamic therapy, permanent hair removal, body sculpting, cellulite reduction and wet/dry microdermabrasion are some of the many services available at the clinic.

With help from Brooke Christopher, a Horsham local who has completed six diplomas in dermal therapy and continually trains under Dr Gugula, the Feel Good, Look Younger - SBS Clinic is the only medical aesthetic clinic in the Wimmera where all patients are assessed.

High quality

Dr Gugula prides herself on providing high quality care for every patient that walks into the clinic.

"I want to ensure the safety of all my patients even if that means sitting down and talking with each patient that walks into the clinic," she said.

"Whether you're receiving skin-cancer treatment or permanent hair removal, your procedures will always be

supervised by a medical professional."

Dr Gugula said that it was always important to check the credentials and safety procedures of the assistant performing the procedure.

"Even the most harmless procedure can have complications, so for your own safety check out the place and people performing the procedure. Even ask medical professionals such as me," she said.

Feel Good, Look Younger – SBS clinic offers special packages on a variety of treatments.

To find out more about the services offered by Dr Gugula please visit www.feel-goodlookyoungersbs.com.au. The website will reopen after an update People can also call the office on 0477 880 241.

The clinic's motto is: *"With regard to excellence, it is not enough to know, but we must try to have and use it"* - Aristotle

TOP: Dr Mihaela Gugula is an expert in treatment and prevention of skin cancers.

LEFT: Thoroughness is key to detecting skin cancers, not just checking moles.
